Subject: Placement of smoke detectors

Dear inhabitants,

From 1 July 2022, all homes in the Netherlands must have a smoke detector. This is mandatory and safer for everyone. That is why Woonbron has smoke detectors installed, also in your home.

Installer installs smoke detector

The company Elektro Four installs the smoke detectors on behalf of Woonbron. This will take about an hour. You will receive a user manual from the installer. It also explains how to properly maintain the smoke detector.

The installer will visit you for this at:

The day and time indicated in the letter received by post.
